

Monster Trucks game

Numbers to 20

Included in this pack

- Monster Truck page with 2 x 10 frames
- Number page with numbers to 20

What you'll need

- Card (or paper) to print on
- Scissors
- Maths counters/cubes etc (any marker you can fit in the ten frame)

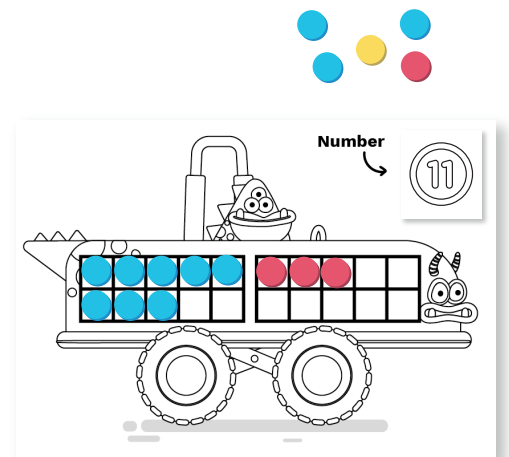

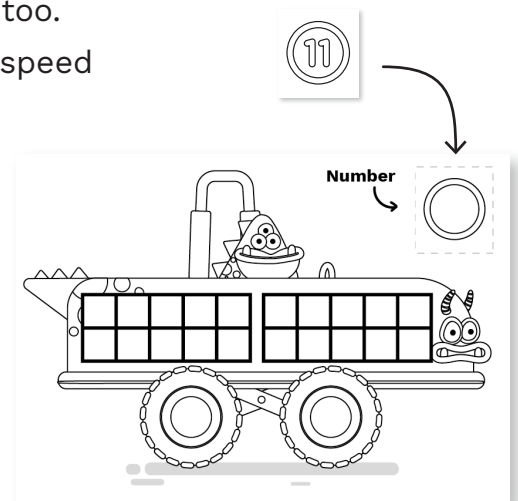

Instructions

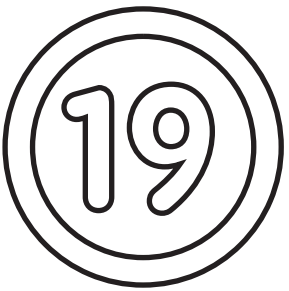

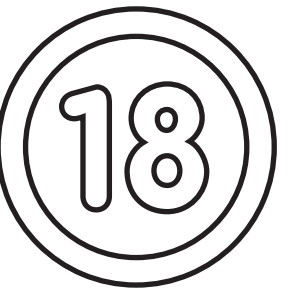

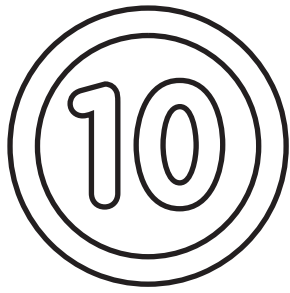

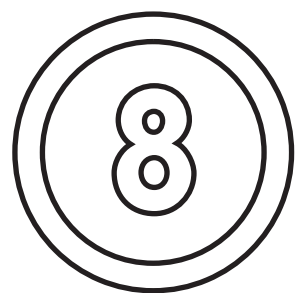

1. Print both sheets. We recommend card so that the numbers can't be seen from the other side, but paper will work too.
2. Cut out the number discs (this can be cut straight for speed or with the circles)
3. Children can colour the pieces if they like!

To play:

1. Get into pairs. Decide who goes first.
2. The first player shuffles the number discs and then picks one to place at the top of the Monster Truck page.
3. The guessing player has to fill up the monster truck with enough counters to knock the first player off the track!
4. The first player can check the number is correct and if so... wooosshhhh! The guessing player wins!
5. If not, help each other to get the right number. Well done! Now go back and play again but the first player is now guessing.

TIP: You can use these frames for addition or use blocks of ten to count to numbers up to 100 too! You could also make this a full class activity - print only the Monster Truck page for the whole class and pick a number for them to make!
